

EVERFORM™

TCI's high-performance Everform™ brings the latest innovations in PTFE material technology to rapid speed ovens. TCI's EverForm™ are the longer-lasting, easy to clean, and non-stick technology for the food industry.

600° F

- **Temperature resistant** from -100°f to 600°f (-73° to 316°c).
- **Higher temperature** allows for convenient in-oven storage.
- **Immune to thermal shock**, will not shatter when transitioning from hot to cold.

- **Longer-Lasting** basket for rapid-speed ovens.
- Material technology creates a product that **resists tearing**.
- **Non-Stick** surface eliminates the need for additional oil.
