

EVERFORM[®]

TCI's high-performance Everform[®] brings the latest innovations in PTFE material technology to rapid speed ovens. TCI's EverForm[®] are the longer-lasting, easy to clean, and non-stick technology for the food industry.

550° F

- **Temperature resistant** from -100°F to 550°F (-73°C to 287°C).
- **Higher temperature** allows for convenient in-oven storage.
- **Immune to thermal shock**, will not shatter when transitioning from hot to cold.

- **Longer-Lasting** basket for rapid-speed ovens.
- Material technology creates a product that **resists tearing**.
- **Non-Stick** surface eliminates the need for additional oil.
