

**NON-STICK PERFORATED BASKET FOR EVEN AIRFLOW AND COOKING INSIDE SPEED OVENS.**

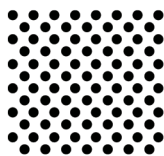

- ✓ **Higher temperature** capability allows for convenient in-oven storage.
- ✓ **Temperature resistant** from -100°F to 550°F (-73°C to 287°C).
- ✓ **Will not shatter** when transitioning from a hot to cold environment.

**EverBasket® is a longer-lasting, easy to clean, and non-stick basket for the food industry.** TCI's high-performance basket brings the latest innovations in PTFE material technology to rapid speed ovens.

A perforated basket allows for maximum airflow for uniform cooking, and superior hot-air circulation inside a high-speed oven.

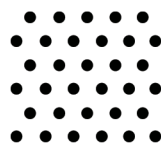

**PERFORATION PATTERNS CAN BE ADJUSTED TO MEET HEAT TRANSFER DEMANDS.**
